Ideal Scenario

Sender Receiver 1. Request outgoing tuple 2. Output outgoing tuple 3. Request all reply tuples 5. Satisfy request 5. Receive outgoing tuple 6. Output reply tuple 8. Receive reply tuple 7. Satisfy request

Reply Failure Scenario

Sender		Receiver
	←	1. Request outgoing tuple
2. Output outgoing tuple		[Receiver moves out of range]
3. Request all reply tuples	→	[Receiver unavailable]
4. Satisfy request	→	[Receiver unavailable]
		[Receiver moves back into range]
6. Satisfy request	←	5. Repeat request
	\longrightarrow	7. Receive outgoing tuple
		8. Output reply tuple
